Republican Territorial Convention

ROOMS OF THE TERS TO IAL REPUBLICAN CONTINUE. ON SITTER,
PERSCOTT, AVIL., Feb. 20, 1892.)
A convention of the republican party of Ariz
ona, will be held at the city of Phanix, or
Thursday, the 7th day of April, 1892, for the pur
pose of selecting two delectives and two after
to be held at Munneapalis on the 7th day of Jun
1892.

or election in 1893 The representation of the several counties will herefore, be as follows:

Total number of delegates. He are election of delegates from the state and territories, to six in the National Convertion of Republicans, whereby their votes the standard bearer of the "Grand O.d Party" is so lected to load on to the victory, is one of the most important functions to be discharged and surely merits full attendance at the convention of our best and truest party men to select said delegates.

The chairman of the Territorial Republica Central Committee desires a full attendance of our Territorial Convention, and requests the all proxims to the Convention Le he d by men they have been selected to represent.
W. J. BASHFOUD.
Chairman Territorial Republican Central 6

BrGEO, E. BROWN, Secretary.

THE senate has passed the Paddock pure food bill without a division.

crats on the house river and harbor committee have been stampeded by cutside pressure and it is now conceded that the river and harbor bill soon to be reported will carry more than \$20,000,000.

RAINMAKER MELBOURNE is reported to be at work in Hermosilla. His efforts effectual for the reason that he could conjure up no clouds to tap. Too much of the seductive mescal evidently fuddled the brain of the rainmaker and he gave the crank the fair weather turn and drove the clouds away.

Hon. C. B. Foster, better known to the country as "Bert" Foster, died n Prescott a few days since, after a short illness. He was an old timer in Arizona and was much respected by all who had the pleasure of his acquaintance. He was apparently in the prime of life and his death being so wholly unexpected it will fall heavily on his many friends. He was territorial treasurer under Governor Zulick and during his residence in Arizona held a number of important offices. He will be morathan missed; es pecially in Yavapai county, where for many years he made his home.

doctrine as to counting a quorum bafore the supreme court for prompt decision. They failed to contrive any such and attend to the duties of his office scheme, and they ought to feel glad of If he does this he will have fewer exit now. The supreme court has at last planations to make and will be O. K. got round to the matter and has decided by unanimous vote, the democratic justices concurring, that the republicans were right, and the rule as to counting a quorum is valid in every respect. If oppression, and czarism they would have been caught in a doubly ludicrons plight. Cheap and foolish as they must feel now the yought to be thankful that they had two years to cool off, and the country the same length of time in which to let the matter fade away before the decision of the supreme court was

have to say that several bills have been and changes in a few cases where postintroduced into the democratic house masters seemed findesirable. The Sentinel more than one-quarter of the pension, states that he obtained money in Yuma, This bill of course is intended merely on the strength of representation made. as a feeble beginning. What is wanted Drafts drawn on the Express and cashed now is to establish a precedent in that by the citizens of Yuma were not honorway of reducing the rate of pension paid ed. Hence the trouble. veterans of the inte war. When they get the necessary precedents and the democratic party is throughly warmed edly have many friends in the northern up to the labors of pension cutting the delegations and if Pima county waives bourbons will do some work that will her right to representation it will in all make people open their eyes.

THE COPPER COMBINE.

says that the new combination of copper-producing companies, which has been in process of formation for the last ten days, for the purpose of regulating - \$ 00 the output and obtaining higher prices has about resched definite shape. The movement originated in Boston, the principal copper market of the country, and was started by managers of the Heela and the Anaconda Mining companies. Other large copper producers have taken part in the movement, and all the important concerns are are now said to have joined the combine. The concerns interested are reticent as to what they intend to do, but the following statement as to the relative produc_ tion which has been agreed upon for 1802 comes from an official of one of the companies of the pool. The amounts are: For Anaconda, 75,000,000 pounds; Calumet and Hecia, 60,006,000; Quincy, 12,000,000; Parrott, 14,000,000; Clark-Bigelow interests, 65,000,000. The Clark-Bigelow interests, include) the Tamarack, Osceola, Kearserge, Boston and Montana and Butte and Boston; total, 226,600,000 pounds.

On the basis of last year's production United States interests now producing, out which are not generally included in the above calculation, follows: Arizona, 5,700,000 pounds; New Mexico, 1,600,000, Lifernia, 3,750,000; Colorado, 7,000,000; Tab 1,700 000; castern, southern and ther sources, 4,800,000; Franklin, 4,250,-68; Atlantic, 3,260,600; Central, 1,414,au; Copper Falls, 600,000; total, 67,584,-

These allotments are in excess of 180P's production, and it is fair to esstibasis. Consequently there is a basis of

laws of supply and demand."

A meeting is to be held in this city omorrow to protect the organization. The Allouez mine will be closed down on the 1st prox., owing to the prevailing low price of copper. The Wolverin sine, under the same management will suspend production at the sam time, but will continue to develop its property.

George Christ, collector of customs

deavoring to repair his proken politics was for him to a man. He repeatedly tory effort. declared to the citizens of Cochis county that he had Pima county in his pocket, and to the citizens of Pima be as often declared that Cochise would send a solid delegation in his favor to the Territorial convention. None of these statements were true. Cochise county went like a cannon ball against him and Pima county will hit him like a' bomb-shell. A Christ delegation from Pana county, judging by the present temper of the people, is an impossibility, and without the vote of his own county he can never hope to see Mioneapolis as an accredited delegate. It is said that he has some hopes of controlling the northern delegation and thus secure his election , but it cannot be done. With the certainity of depersists in pressing his fancied claims upon his friends and they must either dent. shout themsalves hoored in his behalf or be at once classed among his enemies ocratic leaders worked their brains He will not admit that a man can be a vigorously trying to devise means by friend to him unless he can own him which they could fget Speaker Reed's and for that kind of a preformance he has struck the wrong county. Our unsolicits d advice is for George to go home

> THE recommendations and suggestion of the county seat postmasters, who re postmaster-general, after visiting the officers in their counties, are now being onsidered in all their details by the different bureaus of the department. The reports from the county seat postpostmasters generally had letters accompraying them and emphasizing the most important suggestions. These etters were referred to the different oureaus. Of the 2,200 postmasters who unde the visits, fully two-thirds made suggestions. These included recommendations about the discontinuance and establishment of offices, the cortail. ment or increase of star-route service.

Articles of Church Paraphernalia

night of articles of more or less valueprobably less than the thieves expected. Among other things largest in bulk and and citrus varieties. probably to their thoughts greatest in Fifty-six scree are devoted exclusivevalue, they evidently mistaking shining by to garden vegetables, chiefly peas, brass for the yellow gleam of gold, was This truck will be shipped to the Dena large cross, two feet and a half high ver market. The peas are in the pod and of solid brass. Probably it was and will be ready for gathering early in

morning a window opening on the street | nursery, and have commenced to root; was found open. Beside it lay a small besides the compar. In the tabernacle articles of small of rooted vines. value were found scattered about on taken. An exact account of the goods

Two chalices, value about \$20. Two estensoriums, value about \$150.
Several small vessels, an old cassock in which the property was evidently wrapped and the brass cross comprised the remainder.

The tabernacle in which the goods were deposited was pried open by a pair same means, and ultimately furnishing

A VERITABLE BASIS.

FRUITFULNESS OF THE GREAT

A Model Farm in Arizona That Will Supply the Eastern Market.

There is evidence of very substantial progress in store for Yuma and Yuma county. The destiny of this section is bound up in her latent but immensely fertile soil. The capital and enterprise necessary to develop the country through irrigation has already commenced to make their impression here, but what has been done may be regarded as only the entering wedge for the happy realization of a number of the most extensive canal schemes in the great southwest. The vast extent of arable land with a never-failing supply of water situted in a climate unexcelled for the production of an extensive vanot guilty and their trials were set for riety of products which command the top of the market is the prime attraction of the investment of the millions of dollars required to consummate the

The writer is well aware that much has been said for many months past concerning the early prosecution of some of these enterprises, while little or no showing has been made, resulting somewhat in a loss of confidence in Santiago Munoz withdrew the plea of santiago Munoz withdrew the plea of the shandardly prove what our greatest their outcome. Now, however, there is cot guilty of assault with intent to kill to abundantly prove what our greatest enthusiasts have claimed for the country. A visit to the Yuma Fruit company's ranch, three miles south of town. proves an eye-opener to many old timers M. R. Wise vs. A Steinfeld et al, dam- of the territory, as well as the numerous strangers who make Yuma temporary abode in quest of health or for member of the company, a few facts that should prove of interest to some CITIZEN readers abroad, whose eyes

may be turned Arizona-ward. Less than six months ago the Yuma Pumping Irrigation company, of which Capt. F. S. Ingalls is president, J. H. Carpenter, secretary, and Judge E. M. Sanford general manager, commenced to furnish water, for the tract of land under consideration. In the mean time the Yuma Fruit Co., consisting of a portion of the members of said irrigation company, was formed for the purpose of clearing, fencing, cultivating, lanting and harvesting the crops on a large scale. The president of this company is E. A. Wetmore; vice president, F. E. Coe, general manager, E. M. Sanford; superintendent, J. H. Carpenter; chief engineer, J. J. Fisher, and foreman M. Stiles. To those persons choosing to take lands from the Algodones Land company, the Yuma Fruit company offer to take charge of the work of clearing cultivating and fencing each holding at cost, less ten per cent to cover loss of wear and break

age of implements used.

The Yuma Fruit Co., have at present Value Stolen Last Night.

Value Stolen Last Night.

The Catholic church was robbed last planted over five thousand trees, divid ed about equally between deciduous

heid as gold and as such taken. April, and other truck soon thereafter.

When the church was unlocked this About 150,000 grape cuttings are in the besides the company has planted largely

Without attempting nearly so full a the floor, doors were pried open, and description of this enterprise as was many articles of church paraphernalia furnished by the Sentinel and Times last week I have briefly to say that what taken is not ascertainable, but chief may be seen on this plantation must among them are:

Two ciboriums of silver, value about which heretofore may have been regarded extravagant relating to the wondrous capacity of Yuma's soil, and climate with sufficient water added to produce

Prominent officials of the S. P. R. R. visited this ranch on the same day I orised the remainder.

One of the ostensoriums was the most as well as pleasure, in beholding the valued piece in the church, having with marked contrast between the ruitful one of the ciboriums, been brought spot and its dismal surroundings—a ver-from the San Xavier mission. From an intrinsic standpoint it was worth \$100. miles of these arid lands through the
